

NNL BRICKS

Clay Brick-Slip Cladding · Reoti, Ballia, Uttar Pradesh, India

NNL Heritage Clay Brick Slips

Hand-finished extruded clay brick-slip cladding — natural mineral colours, tunnel-fired for consistency, EN / ASTM-testable and SABER-ready for the GCC. Premium exposed-brick walls without the weight of solid masonry.

Product Specification

Product	Extruded clay brick slip / thin cladding tile
Face size	215 × 65 mm (imperial); 230 × 71 mm (metric) on request
Thickness	20 mm (±1.5 mm); corner / return slips available
Coverage	~60 slips per m ² (10 mm joint)
Colours	Red · terracotta · buff · brown · grey · custom blends
Finishes	Smooth wire-cut · sand-faced · rustic / tumbled · antique
Water absorption	≤ 10% (declared per EN 771-1 / ASTM C1088)
Standards	ISO 9001 · EN 771-1 (DoP) · ASTM C1088 · SABER / SASO

Supply & Logistics

Packaging	Cartons on shrink-wrapped pallets; corner-protected
Per container	~711 m ² per 20ft container
MOQ	1 × 20ft container (~700 m ²)
Lead time	4–6 weeks from confirmed order
Incoterms	FOB Mundra / Nhava Sheva (preferred); CIF Jebel Ali on request
Indicative price	FOB Mundra — on request (sample kit + quote within 3 working days)

Why NNL

- **Tunnel-fired colour consistency** — matched batches container to container, not the colour drift of zig-zag kilns.
- **Hand-finished, naturally coloured** — mineral colours and textures, no painted-on coating.
- **Export-ready documentation** — EN / ASTM test data and Declaration of Performance for architects and specifiers.
- **Delivered value** — competitive landed cost into the GCC, well below European supply prices.
